

We are pleased to be able to announce a number of scholarships that are available to horticulture, agriculture, stonemasonry and turf students for 2018. Rotary is keen to invest in Central Otago students, and see scholarships as a way of encouraging you into a long-term career in your respective industry. Hopefully this will be in Central Otago. The aim of scholarships is to encourage students into further study and long-term participation in their respective industries.

Scholarships are gained through hard work and preparation, and a demonstrated commitment to the industry of your choice. These are the attributes that will attain scholarships. Scholarships should be noted as an excellent endorsement of the recipient, and can certainly help in the longer term, when seeking employment.

Rotary are offering 2 scholarships up to the value of up to \$1000 each for Natural Resource students.

You must apply in writing for the scholarships, and leave your application at the office. Please add more information to the application if you wish.

You must complete the attached form and it must be handed to the office staff by 5pm on Wednesday 7 November.

Following the closing date, short listing will occur, and interviews will be held on Friday 16<sup>th</sup> November. All applicants will be notified in writing of the outcomes of short listing and their success or otherwise at the final interview stage.

I would strongly suggest you consider these scholarships, and if interested complete the application form as soon as possible.

Other scholarships are available see the [Scholarship page on the Central Campus website](#) for details.
